

St. Michael's Community Academy Sports Funding

The PE Premium grant is funding, provided jointly by the Departments for Education, Health and Culture, Media and Sport, allocated to primary schools to spend on improving the quality of sport and PE for all their children. This extra funding is intended to heighten the effectiveness of PE provision in schools, and it is at the school's discretion as to how the additional funding is spent.

School's aim

Our aim is to support all our children in accessing different areas of sport and to have a continuing involvement in physical education.

Our SEND Lead at school, Mrs A Williams works a long side me to ensure the school has a fully inclusive environment and ethos. We also liaise with our local Cheshire East games coordinator to maximise any opportunities for our children to access different sports and competitions.

We strongly believe in giving all our children a 'voice' via our school sports leaders and our organising committee. This is also supported by our staff and parents. We have made sure that at least two of our committee members each year have representation from our SEN children. All our children in years 3 to 6 are given the opportunity to fill in a questionnaire about which sports they would like to try and what after school clubs they would like to attend.

We have a fully inclusive PE curriculum in school delivered by two qualified sports coaches. All children take part in at least two hours of high quality PE lessons. We continue to put in place interventions to support learning with the use of TA's and differentiated lessons. It is imperative that all our SEN children have a positive experience during PE. This can be either with a small group, partnered with a friend or on a one to one basis depending on that particular child's needs.

St. Michael's Community Academy Sports Funding Impact 2017/18

Sports Premium funds have been used to:

1) Purchase a range of equipment to run a wider range of clubs:

Outcome:

We have an extensive extra-curricular programme within school. Up to this point we have offered 17 different sports clubs since September 2017. Our extra-curricular clubs are delivered by our sports staff, teachers and at present two outside agencies. We run a change4life club aimed at our SEN and our less active children. We also offer Boccia and curling as part of our range of less active sports. Some of our SEN children take part in kick boxing and dance clubs. These have proved to be very popular and we intend to carry them on next year. Several of our children have gone to joining a club out of school and have taken part in competitions. We recently took three teams of SEN children to a level 2 Boccia competition. Some of our less active SEN children have taken part in sports mornings at South Cheshire College. Here they get to try new sports and activities and it

gives them the chance to meet new children and make new friends in a friendly and more accessible atmosphere. Many of our SEN children enjoy competitive sport and take part in level 1 intra-school competitions during PE lessons. This has then opened up a pathway to competition at level 2 where it gives them the opportunities to compete against children from other schools.

All our children in years 4 and 5 take part in swimming lessons during the school year.

There are currently 27 of our 45 SEN children who have taken part in extra-curricular sports during this academic year. 11 children have also represented the school at level 2 competitions

This year in PE we have offered the following clubs

Football Boccia Netball Ballet\dance Athletics\Indoor athletics Orienteering
Tennis dodgeball Tai boxing Curling Change4life Basketball Team Building
Line dancing Cheerleading Multi skills

We have entered teams in the following level 2 competitions:

Boccia Swimming Boys football\girls football Quad sports Indoor athletics Town sports Cross country Dodgeball Tug of War Futsball Orienteering Netball

We came home winning trophies Quad sports, orienteering and Tug of war.

We qualified in orienteering and quad sports for the /level 3 games. We were awarded the Spirit of the Games award.

All our children in years 1-6 have taken part in level 1 intra school competitions during PE lessons.

This is done at the end of every half term to showcase the sport they have been taking part during that term.

All our children have been assessed in 5 areas of PE during the autumn and summer term. Children have then had the opportunity compete and achieve their personal best in all these areas. Children have also taken part in National Sports Week and we have organised two sports afternoons in which the whole school took part in several different activities.

This year we ran a campaign for all our children to take part in the active mile. The aim has been for children to walk\jog or run a mile during the school day.

All of our children in year 6 attended a respect programme at Crewe Fire Station. They took part in a number of team building activities, discussed and learnt about the importance of road safety and spent an afternoon learning how to use the hoses.

10 children from year 6 were chosen as sports leaders this year. They have helped out at events such as sports day, royal wedding sports afternoon and national sports week.

We also sent 6 of our year 6 children to a special gifted and talented sports event. This was held over two days during half term at Ruskin Sports College.

This years sports day was themed around our School House Teams. Each class was split into four teams representing Crewe Alex, Webb, Gresty and Bentley. Reception, year 1 and 2 had their event in the morning with KS2 in the afternoon. All children took part in at least 2 races, including sprinting, distance, balancing and relay races.

We also held a special sports day for our Nursery children. This was themed around a 'Teddy Bears Picnic'. Parents were invited to bring a picnic and watch their children take part in races.

As a result of our continued efforts in educating and engaging all pupils in healthy and active lifestyles and enabling more pupils to access competitive sport experiences we currently hold the **gold award** for the Sainsbury's School Games and have held this mark for the last three years. We have applied for the active mark again this year.

St. Michael's Community Academy Sports Funding 2018/19

During the academic year 2018/19 the academy will receive £19410.00 in Sports Funding. The Academy already employs a full time instructor of Physical education. Priorities that will be addressed with the additional sports funding include:

- Updating school equipment and resources with the aim of using these to provide the best delivery of PE education possible, ensuring that pupils take part in regular structured sporting opportunities
- Ensure that all pupils in KS2 participate in at least one extra-curricular sports/ PE club per term
- Ensure that pupils in KS1 participate in at least one extra-curricular sports/PE club per academic year, with at least two on offer each term
- Supporting less confident pupils to engage with sports through sporting activities tailored for their level of ability, and through Change4life clubs
- Ensure that all pupils participate in at least one *intra*-school (i.e. competing against classmates or other children currently attending the academy) competition each school year, in addition to sportsday
- Ensure that the scope of *inter*-school (i.e. competing against children from other schools) competitions entered into by talented athletes is maximised. St Michaels has already competed in inter-school competitions in football, hockey, swimming, gymnastics and sports hall athletics, with plans to further participate in tag rugby, cricket and track & field tournaments. We have also sent less confident pupils to a specially tailored sports event involving similar pupils from other local schools
- Attend regular meetings within the St Bart's Trust that promote shared practice with a view to organising events that give children the opportunity to compete across the trust including sport premium children.

The impact of the use of the PE premium will be assessed in a report at the end of the 2018-19 academic year.
